

NATE KOERBER

I am Dr. Nate Koerber and I will be helping supervise the Chilean PD experience. In my free time I love music, reading, futbol, hiking, and basketball. I also love working out, food, and animals. I workout and stretch at east 4 days a week because I had a back injury and working out helps to correct and make sure that issue doesn't flare up again. I do not have any food or any other allergies.

ABOUT ME

I have traveled outside of the US a few times now, to the UK mostly, as well as to New Zealand and Canada so I'm very excited to experience Chile again. I really don't have any expectations but to try and be a helpful part of the home that welcomes me in.

In my free time I hope to see some of the natural beauty Chile has to offer and would love to hike, visit cultural sites, museums, marketplaces, and really experience the local area. This will be my third time back in Chile and I could not be more excited to connect with old familiar faces.
